LANGUAGES

Thai / English

CORE CAPABILITIES

- IT Operations & Infrastructure
- Full-Stack & Business Systems
- Workflow Automation
- Applied AI Prototyping
- Project & Process Coordination
- Data & Technical Engineering

ADDITIONAL QUALIFICATIONS

- Workplace Safety Committee Officer certification
- Cross-branch coordination between Thailand and Germany

EDUCATION

Bachelor of Computer Engineering
Prince of Songkla University, Phuket Campus
2017 - 2021

EXPERIENCE

IT Infrastructure Manager

VIGNOLD, Thailand | 2024 - Present

- Automate macOS configuration and software deployment with Ansible, Munki, and custom packages while supporting daily device and user needs.
- Coordinate networking, onboarding, operational documentation, and IT work between teams in Thailand and Germany.

Product & Software Development

Personal Projects - EPSX and Folio ERP | 2024 - Present

- Build a live analytics side project spanning public and admin interfaces, access workflows, notifications, and developer tools.
- Develop a financial-workflow prototype with role-based review, document processing, local AI experiments, and human approval steps.

Senior Full-Stack Developer

Finstable | 2024

- Worked on ERP and cloud-connected applications across backend services, user interfaces, role-based approvals, and business workflows.

Head Engineer / Industrial Project Manager

Token Miner | 2022 - 2024

- Worked across budgets, equipment, facility layouts, thermal and power planning, maintenance, operating procedures, and vendor coordination.

IT, Web & Mobile Developer

IMT Group | Mar 2021 - Jan 2022

- Developed internal applications, supported IT planning and tool selection, and documented workflows for business teams.

Freelance Full-Stack Developer

Independent | 2021 - 2022

- Built POS, inventory, administration, and workflow-based web applications for business clients.

SELECTED SYSTEMS

- Folio ERP: working prototype for document intake, multi-role review, accounting workflows, and local AI assistance
- HR AI Agent: working prototype connecting LINE, n8n, local language-model processing, and an admin review interface
- AI Contract Analyzer: working prototype for document extraction, local policy retrieval, and human review
